Title: *Extended Professional Experience Summary*

Background Context:
This document expands on the summary points listed in the main profile (see linkedin.pdf) and includes narrative-style descriptions of past projects, responsibilities, and team contributions.

Roles Outlined:

- **AI Intern – Public Sector Project**
  Participated in policy research augmentation using document-level NLP and RAG-based QA systems. Assisted in organizing source corpora, building embeddings, and fine-tuning conversational layers for prototype deployment.

- **Junior Data Analyst – Research Collaboration**
  Cleaned, transformed, and visualized multi-source datasets. Worked under senior supervision to create reproducible insights using Python and Excel for internal decision-making.

- **Support Assistant – Technical Field**
  Supported document processing, reporting automation, and cross-functional communication. Experience involved task coordination and improvement suggestion tracking.
